Beyond Weight. Shifting Focus to Health – 11 Week Program

This program supports you to shift focus away from weight as a measure of your health. In this interactive virtual group we will explore how to make lasting change in the areas of nutrition, physical activity and mental well-being. We will discuss the complexities of weight and learn strategies to support change. This program does not focus on “dieting” and individualized meal plans will not be provided. Each week you will set your own goals and make a plan to achieve them.

What is a Community Health Team?

A Community Health Team (CHT) offers free wellness programs and services in your community. The range of programs and services offered by each Community Health Team is shaped by what we have heard citizens need to best support their health. Your local Community Health Team:

- offers free group wellness programs at different times and community locations to make it easier for you to access sessions close to home
- offers free wellness navigation to help you prioritize health goals and connect to the resources that you need
- works closely together with community organizations toward building a stronger and healthier community
- All programs are offered by healthcare professionals (physiotherapists, dietitians, social workers, occupational therapists, nurses and recreation therapists)
